

August 15<sup>th</sup> 2019

We enlisted Xtend2 to develop a B2B program in Geneva for a delegation of Canadian Nutraceutical Companies attending Vitafoods Europe. Working with them ensured we obtained high level meetings as they are very well connected in the industry. Our companies truly benefited from the introductions.

Xtend2 are a pleasure to work with. They provide a professional service and regularly keep their clients up to date on progress. Frequent communication resulted in a very focused program for our companies but also helped us increase our knowledge of the sector.

I would highly recommend Xtend2 to any business looking to grow their network and sales but also to any Government Trade & Export Organisations looking to build programs for their companies around Agri-Food events. We will keep using their services for future trade mission.
