

Senior DevOps Engineer (m/f)

Akens \ Nordburg is looking for a **Senior DevOps Engineer (m/f)** to enlarge the IT development team based in Madrid of a leading German company within the furniture retail sector. Our client has seen in the past years a substantial shift towards e-commerce, making it a core component of the company business strategy.

The company is currently focused on an omnichannel approach, seamlessly integrating the physical and digital channels to offer customers a unified shopping experience.

Your responsibilities:

- Design, develop, and maintain automated processes and pipelines for building, testing, and deploying applications and infrastructure.
- Implement and manage CI/CD (Continuous Integration and Continuous Deployment) pipelines to ensure the rapid and reliable delivery of software updates.
- Implement security best practices throughout the CI/CD pipeline and infrastructure to ensure the safety of applications and data.
- Manage and maintain version control systems (e.g., Git) and enforce code quality standards.
- Create and maintain documentation for processes, configurations, and troubleshooting procedures.

Requirements:

- Bachelor's degree in computer science, Information Technology, or a related field (or equivalent work experience).
- Proficiency with scripting languages (Bash).
- Very good experience with CI/CD tools (Jenkins) and version control systems (Git).
- Familiarity with containerization and orchestration tools (Docker).
- Understanding of networking, security, and cloud computing concepts.
- Excellent problem-solving and troubleshooting skills.
- You are characterized by a commitment to continuous development.
- You are interested in new technologies.
- You are enthusiastic about innovations.
- You have a very good command of English.

Our promise:

Become part of one of the most successful furniture companies in Germany. As a solid family business, the company stands for the highest degree of fairness in our dealings with one another and place great value on flat corporate hierarchies with the best opportunities for advancement.

You can expect a crisis-proof position with a varied range of tasks and an attractive, performance-based salary model with a pleasant working environment.

If you are interested in this position, please send us your resume to info@akens-nordburg.com
