Subject: Testimonial

Dear Daniel

It's my pleasure to send you the testimonial you have requested.

Netcentric is a Swiss digital service provider with 400 employees in six European countries. We provide software and digital marketing strategies to top brands such as Daimler/Mercedes-Benz, Audi, DHL, UBS, Allianz and Miles and More.

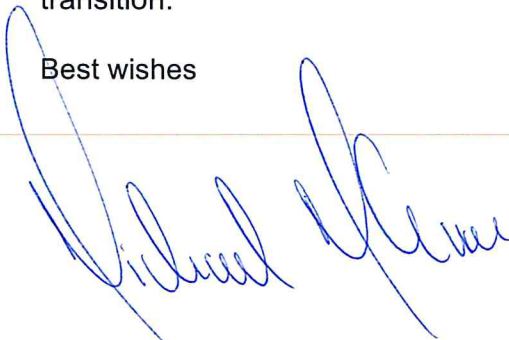

In June 2016, we opened our first Latin American location in Medellin, Colombia. Our goal was to establish an offshore center to provide our European teams of developers with software solutions "Made in Colombia".

From the very beginning, Ongresso has endorsed us in an outstanding way and played a key role in the rapid buildup and growth of our Colombian subsidiary: The company handled the company foundation, managed the initial recruiting process, handled the back office (accounting, payroll, cash management) and provided legal advisory and representation. This full-service package is unique and one of the reasons why we chose Ongresso.

Furthermore, the company offers excellent services. The Ongresso team is competent, reliable, efficient and fast. Working with them is a pleasure. In no time the staff members of both our companies have established a cordial relationship. In short, you couldn't wish for a better partner in Latin America.

In October 2017, Netcentric was acquired by Cognizant, one of the world's leading professional services companies. The top management has decided to close down the Medellin subsidiary. Ongresso also supported us in the closing process and ensured a smooth transition.

Best wishes

Michael McCrae
Group Managing Director
