

Schnabl UK

Schnabl Stecktechnik GmbH is a family owned Austrian company manufacturing industrial fastening systems, that offers electrical installation companies significant workload reductions and time savings of up to 60%.

EBS has helped to establish Schnabl UK Limited and to open a UK bank account for the business.

Today EBS takes care of the company's financial administration, employee's payroll, VAT, and order processing for Schnabl direct into its systems at the Head Office in Austria.

Our UK Market Access Program network has also helped Schnabl with car leasing and company insurance.

Wolfgang Bruckbauer, Director of Schnabl UK said: *'I like EBS, they tell me about solutions not problems'.*
