We aim to

- support Swiss Entrepreneurs to expand their market Globally
- and Foreign Entrepreneurs to invest in Switzerland.

Our Services and Industry Coverage

2

Our Services

Our services for advanced manufacturing clients

Programme management

Looking at the big picture, driving better overall outcomes, and having real confidence your programme is under control.

Strategy and set up

Setting up for success – building the right capabilities and execution plan to drive clear programme outcomes.

Project management

Delivering project success through effective planning, the right team, and rigorous controls.

Cost and commercial management

Driving and safeguarding your commercial interests from start to finish.

Driving Net Zero

Helping to build a carbon net zero future and creating a more green, inclusive and productive world.

Procurement

Developing and delivering procurement and supply chain strategies that get the best results from the market.

Controls and performance

Applying robust and proactive controls from a clear baseline to deliver confidence in programme and project performance.

Safety, health and quality

Embedding the strategies and culture that support effective operations and maintain a safe and healthy environment.

Technology and data

Unlocking the potential of technology, data and information modeling to drive performance, support great decision-making and create collaborative working environments.

Consultancy

Independent advice to help make your business and investments a success.
